7 This Act is the *New Vehicle Efficiency Standard Act 2024*.

8 **2 Commencement**

9 (1) Each provision of this Act specified in column 1 of the table
10 commences, or is taken to have commenced, in accordance with

Section 3

column 2 of the table. Any other statement in column 2 has effect according to its terms.

Commencement information

Column 1	Column 2	Column 3
Provisions	Commencement	Date/Details

Note: This table relates only to the provisions of this Act as originally enacted. It will not be amended to deal with any later amendments of this Act.

(2) Any information in column 3 of the table is not part of this Act. Information may be inserted in this column, or information in it may be edited, in any published version of this Act.

3 Objects of this Act

The objects of this Act are to:

- (a) establish a vehicle emissions standard covering certain vehicles, that will:
 - (i) create economic incentives for the manufacturers and suppliers of such vehicles to provide models to the Australian market that emit less carbon dioxide; and
 - (ii) provide consumers in Australia with a choice of vehicles that meet their work and lifestyle needs while also meeting the environmental expectations of the community; and
 - (iii) be transparent, flexible and able to be calibrated over time according to policy needs; and
 - (iv) be robust and based on the best available evidence and data; and
- (b) reduce carbon dioxide emissions in the transport sector, thereby contributing to the achievement of Australia’s greenhouse gas emissions reduction targets; and
- (c) give effect to certain obligations that Australia has as a party to the following:

Section 4

- 1 (i) the Climate Change Convention;
- 2 (ii) the Kyoto Protocol;
- 3 (iii) the Paris Agreement.

Part 2—New vehicle efficiency standard

Division 1—Introduction

11 Simplified outline of this Part

This Part establishes the new vehicle efficiency standard.

The standard applies to any person who has a covered vehicle for a year beginning on or after 1 January 2025. Generally, a covered vehicle for a year is a passenger or light commercial vehicle that is entered on the Register of Approved Vehicles for the first time during the year (or during the second half of the year in the case of a covered vehicle for 2025).

Some vehicles are exempt from the standard. Any vehicle with a gross vehicle mass exceeding 4.5 tonnes is exempt. The Minister may also determine that other classes of vehicle are exempt.

A person to whom the standard applies in a particular year must ensure that, on the third 1 February after the end of the year, their final emissions value for the year is zero or less. Failure to achieve this may result in a civil penalty.

A person's final emissions value for a year is their interim emissions value for the year minus the number of units they have extinguished under Part 3 for the purpose of reducing their final emissions value.

A person's interim emissions value for a year is worked out by comparing, for each covered vehicle for the person for the year, the carbon dioxide emissions of the vehicle entered on the Register of Approved Vehicles against an emissions target. The target takes into account the vehicle's particular characteristics. If the vehicle produces fewer emissions than its target, a negative number is generated; if not, a positive number or zero is generated. These

Section 11

1 numbers are summated to obtain the person's interim emissions
2 value for the year.

3 A positive interim emissions value for a year indicates that a
4 person's vehicles have collectively underperformed their emissions
5 targets, whereas a negative value indicates overperformance. If a
6 person has a negative interim emissions value for a year, the
7 Secretary must issue units to the person under Part 3.

8 The Minister may determine, by legislative instrument, a range of
9 matters relevant to the vehicle efficiency standard.

10 Before making such a determination, the Minister must consult
11 with the public.

Section 12

Division 2—Covered vehicles

12 Covered vehicles

Type approval pathway

- (1) A vehicle is a **covered vehicle** for a person for a year if:
- (a) the vehicle is a type 1 vehicle or a type 2 vehicle; and
 - (b) the person holds a road vehicle type approval that applies to the vehicle; and
 - (c) the person (or another person authorised, in writing, by the first-mentioned person to enter vehicles on the RAV under the approval) enters the vehicle on the RAV:
 - (i) if the year is 2025—between 1 July 2025 and 31 December 2025; or
 - (ii) otherwise—during the year; and
 - (d) that entry of the vehicle on the RAV is the first time the vehicle is entered on the RAV.

Concessional RAV entry approval pathway

- (2) A vehicle is also a **covered vehicle** for a person for a year if:
- (a) the vehicle is a type 1 vehicle or a type 2 vehicle; and
 - (b) the person holds a concessional RAV entry approval in respect of the vehicle; and
 - (c) the vehicle is entered on the RAV:
 - (i) if the year is 2025—between 1 July 2025 and 31 December 2025; or
 - (ii) otherwise—during the year; and
 - (d) that entry of the vehicle on the RAV is the first time the vehicle is entered on the RAV; and
 - (e) the vehicle is in a class of road vehicle that is determined to be covered by this paragraph in an instrument in force under section 28.

13 Type 1 vehicles

(1) A vehicle is a *type 1 vehicle* if:

(a) it is in one of the following vehicle categories:

(i) MA (passenger car);

(ii) MB (forward-control passenger vehicle); or

(b) it is a light off-road passenger vehicle; or

(c) it is in a class of road vehicle determined to have type 1 vehicle status in an instrument in force under section 29.

(2) However, a vehicle is not a *type 1 vehicle* if:

(a) it is in a class of road vehicle determined to have type 2 vehicle status in an instrument in force under section 29; or

(b) it is an exempt vehicle.

Note: A determination under section 29 may provide that a class of road vehicle containing vehicles covered by paragraph (1)(a) or (b) of this section has type 2 or exempt vehicle status (see subsection 29(2)).

14 Type 2 vehicles

(1) A vehicle is a *type 2 vehicle* if:

(a) it is in:

(i) the NA (light goods vehicle) vehicle category; or

(ii) the NB1 vehicle subcategory of the NB (medium goods vehicle) vehicle category; or

(b) it is a heavy off-road passenger vehicle; or

(c) it is in a class of road vehicle determined to have type 2 vehicle status in an instrument in force under section 29.

(2) However, a vehicle is not a *type 2 vehicle* if:

(a) it is in a class of road vehicle determined to have type 1 vehicle status in an instrument in force under section 29; or

(b) it is an exempt vehicle.

Note: A determination under section 29 may provide that a class of road vehicle containing vehicles covered by paragraph (1)(a) or (b) of this section has type 1 or exempt vehicle status (see subsection 29(3)).

Section 15

15 Off-road passenger vehicles

- (1) A vehicle is a *heavy off-road passenger vehicle* if:
- (a) the vehicle is in the MC (off-road passenger vehicle) vehicle category; and
 - (b) the rated towing capacity first entered on the RAV in relation to the vehicle is 3 tonnes or more; and
 - (c) the vehicle's chassis:
 - (i) is determined to be covered by this subparagraph in an instrument in force under section 30; or
 - (ii) if no such instrument is in force—is a body on frame chassis within the ordinary meaning of that expression.
- (2) A vehicle is a *light off-road passenger vehicle* if it is in the MC (off-road passenger vehicle) vehicle category and is not a heavy off-road passenger vehicle.

16 Exempt vehicles

- A vehicle is an *exempt vehicle* if:
- (a) the GVM (gross vehicle mass) entered on the RAV in relation to the vehicle exceeds 4.5 tonnes; or
 - (b) it is in a class of road vehicle determined to have exempt vehicle status in an instrument in force under section 29.

Division 3—Emissions from covered vehicles

Subdivision A—Final and interim emissions value

17 Duty to ensure that final emissions value is zero or less

- (1) If there is a covered vehicle for a person for a year beginning on or after 1 January 2025, the person must ensure that, at the start of the final reconciliation day for the year, the person's final emissions value for the year is zero or less.

Civil penalty: The person's final emissions value for the year multiplied by \$100.

Note: See also section 90 (indexation).

- (2) The *final reconciliation day* for a year is the third 1 February after the end of the year.

Example: The final reconciliation day for 2025 is 1 February 2028.

18 Final emissions value

A person's *final emissions value* for a year is the number worked out using the following formula:

$$IEV - U$$

where:

IEV is the person's interim emissions value for the year.

U is the number of units extinguished under section 42 for the purpose of reducing the person's final emissions value for the year.

19 Interim emissions value

A person's *interim emissions value* for a year is the number worked out using the following formula (rounded to the nearest whole number and rounded up if the first decimal place is 5 or more):

$$\sum_i (E_i - ET_i)$$

Section 20

- 1 where:
- 2 *i* is a covered vehicle for the person for the year.
- 3 *E*, for a covered vehicle for the person for the year, is the
- 4 emissions number for the vehicle for the year.
- 5 *ET*, for a covered vehicle for the person for the year, is the
- 6 emissions target for the vehicle for the year.

7 **Subdivision B—Emissions number**

8 **20 Emissions number**

- 9 The *emissions number* for a vehicle for a year is the number of
- 10 grams of carbon dioxide emissions that are entered on the RAV (in
- 11 grams of carbon dioxide per kilometre) in relation to the vehicle at
- 12 the start of the interim reconciliation day for the year.

- 13 Example: If the carbon dioxide emissions that are entered on the RAV in
- 14 relation to a vehicle at the start of the interim reconciliation day for a
- 15 year are 130.67g/km, then the emissions number for the vehicle for
- 16 the year is 130.67.

17 **Subdivision C—Emissions target**

18 **21 Emissions target**

- 19 The *emissions target* for a vehicle for a year is the number worked
- 20 out using the following formula:

21
$$HL + MAF(DM - RM)$$

- 22 where:

- 23 *HL* is the headline limit for the vehicle for the year.

- 24 *MAF* is the mass adjustment factor for the vehicle for the year.

- 25 *DM* is the designated MIRO for the vehicle for the year.

- 26 *RM* is the reference MIRO for the vehicle for the year.

1 **22 Headline limit**

2 *Years in introductory period*

3 (1) The **headline limit** for a vehicle for a year specified in column 1 of
4 an item of the following table is:

- 5 (a) if the vehicle is a type 1 vehicle—the number specified in
6 column 2 of that item; or
7 (b) if the vehicle is a type 2 vehicle—the number specified in
8 column 3 of that item.

9

Headline limit			
Item	Column 1	Column 2	Column 3
	Year	Type 1 vehicles	Type 2 vehicles
1	2025	141	210
2	2026	117	180
3	2027	92	150
4	2028	68	122
5	2029	58	110

10 Note: Headline limits for years in the introductory period were determined
11 consistently with the NEDC (New European Driving Cycle) test
12 procedure.

13 *Later years—type 1 vehicles*

14 (2) The **headline limit** for a type 1 vehicle for a year beginning after
15 the introductory period is:

- 16 (a) if an instrument in force under section 31 determines a
17 number for the headline limit for type 1 vehicles for the
18 year—that number; or
19 (b) otherwise—the headline limit for type 1 vehicles for the
20 previous year.

21 *Later years—type 2 vehicles*

22 (3) The **headline limit** for a type 2 vehicle for a year beginning after
23 the introductory period is:

Section 23

- 1 (a) if an instrument in force under section 31 determines a

Part 3—Units issued in respect of covered vehicles**Division 1—Introduction****37 Simplified outline of this Part**

This Part provides for units to be issued by the Secretary in respect of vehicles covered by the new vehicle efficiency standard.

Units are issued to a person whose interim emissions value for a year is less than zero. The number of units issued depends on how much that value is less than zero.

Units may also be issued in respect of vehicles covered by the standard in other, limited circumstances.

A person may extinguish some or all of their units to reduce their final emissions value for a year. Alternatively, they may transfer units to another person who may extinguish them to reduce their own final emissions value for a year.

A person extinguishes or transfers units by requesting that the Secretary update the relevant accounts in the registry established under Part 4. The Secretary may refuse such a request in certain circumstances.

A unit is extinguished 3 years after issue, unless it is extinguished earlier.

A unit is the personal property of the person in whose registry account there is an entry for the unit.

Section 38

Division 2—Issue of units

38 How units are issued etc.

- (1) Units are issued to a person under this Division on behalf of the Commonwealth.
- (2) Units may be issued to a person under more than one provision of this Division in respect of the same covered vehicle.
- (3) The Secretary issues a unit to a person under this Division by making an entry for the unit in the person's registry account.

39 Interim emissions value less than zero

- (1) If a person's interim emissions value for a year beginning on or after 1 January 2025 is less than zero, the Secretary must:
 - (a) issue a number of units to the person that is equal to the absolute value of the person's interim emissions value for the year; and
 - (b) do so as soon as practicable after the interim reconciliation day for the year.

Example: If a person's interim emissions value for a year is -200, the absolute value is 200 and, if the person has a registry account, they will be issued 200 units.

- (2) However, if:
 - (a) the Secretary is required to issue a unit to a person under subsection (1) as soon as practicable after the interim reconciliation day for a year; and
 - (b) the person does not have a registry account; and
 - (c) the person does not apply under section 53, within one year after that day, for the Secretary to open an account in the Registry in the person's name;then, despite that requirement, the Secretary must not issue the unit to the person.

40 Adjusted RAV entries*Application for units*

- (1) A person may apply for the Secretary to issue a specified number of units to the person under this section.
- (2) The application must:
 - (a) be in writing; and
 - (b) meet the requirements (if any) prescribed by the rules; and
 - (c) be accompanied by the fee (if any) prescribed by the rules.
- (3) A fee prescribed for the purposes of paragraph (2)(c) must not be such as to amount to taxation.

Issue of units

- (4) If a person makes an application under subsection (1), the Secretary may issue one or more units to the person if:
 - (a) there is a covered vehicle for the person for a year beginning on or after 1 January 2025; and
 - (b) the person has a registry account; and
 - (c) at a time after the interim reconciliation day for the year either or both of the following subparagraphs apply:
 - (i) the number of grams of carbon dioxide emissions that are entered (in grams of carbon dioxide per kilometre) on the RAV in relation to the vehicle (the **adjusted emissions number**) is different from the emissions number for the vehicle for the year;
 - (ii) the number of kilograms in the MIRO (mass in running order) that is entered on the RAV in relation to the vehicle (the **adjusted MIRO number**) is different from the MIRO number for the vehicle for the year; and
 - (d) the person's interim emissions value for the year would be lower if it were worked out using:
 - (i) if only subparagraph (c)(i) applies—the adjusted emissions number; or
 - (ii) if only subparagraph (c)(ii) applies—the adjusted MIRO number; or

Section 41

- 1 (iii) if both subparagraphs (c)(i) and (ii) apply—the adjusted
2 emissions number and the adjusted MIRO number.
- 3 (5) The number of units issued to the person must not exceed the
4 difference between:
- 5 (a) the person’s interim emissions value for the year; and
6 (b) the number that is equal to what the person’s interim
7 emissions value for the year would be if it were worked out
8 using:
- 9 (i) if only subparagraph (4)(c)(i) applies—the adjusted
10 emissions number; or
11 (ii) if only subparagraph (4)(c)(ii) applies—the adjusted
12 MIRO number; or
13 (iii) if both subparagraphs (4)(c)(i) and (ii) apply—the
14 adjusted emissions number and the adjusted MIRO
15 number.

16 *Notice of decision*

- 17 (6) If the Secretary decides:
- 18 (a) to not issue units to the person; or
19 (b) to issue fewer units to the person than the number of units
20 specified in the application;
- 21 the Secretary must give the person written notice of the decision
22 and the reasons for the decision.

23 **41 Destroyed vehicles**

24 *Application for units*

- 25 (1) A person may apply for the Secretary to issue a specified number
26 of units to the person, under this section, in respect of a specified
27 covered vehicle for the person for a year beginning on or after
28 1 January 2025.
- 29 (2) The application must:
- 30 (a) be in writing; and
31 (b) meet the requirements (if any) prescribed by the rules; and
32 (c) be accompanied by the fee (if any) prescribed by the rules.

Section 41

- (3) A fee prescribed for the purposes of paragraph (2)(c) must not be such as to amount to taxation.

Issue of units

- (4) If a person makes an application under subsection (1), the Secretary may issue one or more units to the person if:
- (a) the Secretary is satisfied that:
 - (i) the vehicle was destroyed before the final reconciliation day for the year; and
 - (ii) the vehicle was not provided to a consumer for the first time in Australia; and
 - (b) the destroyed vehicle adjustment for the vehicle for the year is more than zero; and
 - (c) the person has a registry account.

- (5) The number of units issued to the person in respect of the vehicle must not exceed the destroyed vehicle adjustment for the vehicle for the year.

- (6) The ***destroyed vehicle adjustment*** for a vehicle for a year is the number worked out using the following formula (rounded to the nearest whole number and rounded up if the first decimal place is 5 or more):

$$E - ET$$

where:

E is the emissions number for the vehicle for the year.

ET is the emissions target for the vehicle for the year.

- (7) For the purposes of subparagraph (4)(a)(ii), ***providing*** a vehicle includes the provision of the vehicle due to a sale, exchange, gift, lease, loan, hire or hire-purchase.

Notice of decision

- (8) If the Secretary decides:
- (a) to not issue units to the person; or

Part 3 Units issued in respect of covered vehicles

Division 2 Issue of units

4 and the reasons for the decision.

Division 3—Extinguishment and transfer of units

42 Units extinguished for purpose of reducing final emissions value

(1) If:

- (a) a person is the registered holder of one or more units; and
- (b) the person's interim emissions value for a year is greater than zero;

the person may request that the Secretary extinguish any or all of those units for the purpose of reducing the person's final emissions value for the year (but not below zero).

(2) The request must:

- (a) be made during the period:
 - (i) beginning on the interim reconciliation day for the year; and
 - (ii) ending on the second 31 December after the end of the year; and
- (b) be in writing; and
- (c) meet the requirements (if any) prescribed by the rules.

Example: A request to extinguish units for the purpose of reducing a person's final emissions value for 2025 must be made between 1 February 2026 (the interim reconciliation day for 2025) and 31 December 2027).

(3) Within 15 business days after the request is made, the Secretary must extinguish the units covered by the request by removing the entry for each of those units from the person's registry account.

(4) This section has effect subject to section 46 (Secretary may refuse to extinguish or transfer units).

43 Units extinguished other than for purpose of reducing final emissions value

(1) If a person is the registered holder of one or more units, the person may request that the Secretary extinguish any or all of those units.

Section 44

- 1 (2) The request must be in writing and meet the requirements (if any)
2 prescribed by the rules.
